

The bathtubs in this collection are the epitome of elegance and sophistication in the wellness field. Designed with a uniquely reinforced acrylic contour, this model incorporates a deck-mounted thermostatic tap set, tub filler and an easily accessible handheld shower that remains discreetly concealed when not in use so that the overall linear purity of the bathroom suite is not marred by unnecessary visual elements. The smooth, ergonomic design of this bathtub also includes a soft headrest and handles for greater safety and comfort in the self-care ritual.

The bath is available in four finishes: the smooth Glossy White with Chrome brassware adds a crisp, fresh look to the piece; Off-White with Chrome brassware offers an updated twist on a classic, elegant finish; warm Greige with Greige brassware lends a discreet, sophisticated air; and the Nero finish with Nero brassware adds a bold, contemporary feel.

Bath height with mounted panel (mm): 550

Border for faucet
